Technical University of Applied Sciences Rosenheim, Computer Science

OS X – Online

Overview

This slides contain some information about

- Online: Screen sharing
- Rules
- Drop-out
- Interaction

for the screen sharing online lecture.

Online: Screen sharing

Screen sharing includes:

- Discussion of lecture slides (*relatively close to that what we would do in an usual lecture style*)
- Additional drawings directly into the slides
- Live coding
- Possibility of questions -> interactive

Closed and protected room

To have a **closed** and **protected** “online” room for us, which allows questions and doing mistakes, the following has to be considered:

- No recordings
- No Screenshots

Important: I do not want you to make any recordings of me: so, **no screenshots** and **no recordings**. In return, I don't make any recordings of you either.

Mute yourself

Please **stay muted** during the lecture to

- **not disturb** the channel with background noise
- to have a **clear communication**: who speaks now

If *you want to say something*, I ask you to **temporarily** unmute yourself.

Drop-out

If you have a **Drop-out**, just **rejoin** the channel.

In the case that I will be dropped (*which is not impossible*), just give me a few minutes to rejoin.

Participant state

For a *short personalised non-verbal communication*, we can use the **participant states**:

Symbol Description

Raise hand

Yes

No

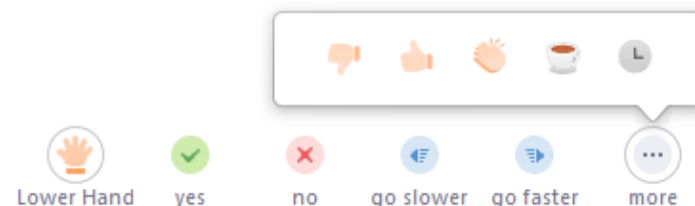

Short break

Away

Zoom states overview:

<https://support.zoom.us/hc/en-us/articles/115001286183-Nonverbal-Feedback-During-Meetings>

Quiz and polls

To quickly **test yourself** and give you the chance to take part **anonymously**, we do small **quizzes** and **polls**.

Stamps

For small questions and a short interaction to estimate or rank something, we use **stamps**.

Chat

Is everything OK? Do you have further **custom questions**?

Please use the **chat** to write me.

Important:

Please **don't** use the *chat for fun*, because you **lower your attention** and the attention of the **others**.

Voice channel

You can also ask something via the **voice channel**.

For that, please **raise your hand** and I will ask you to **unmute** and **talk**.
